## Summary

### About this Release

The older versions have a mixture of names between Year Book Western Australia and Statistical Register of Western Australia.

The Statistical Register series started in 1900 and went through to 1959 -60.

There was an overlap with the new series of Year Books starting with the 1957 issue.

From the 1960 issue onwards, the title has been Year Book Western Australia.

The Western Australian Year Book is a contemporary reference book with many subjects that either changed in the later series after 1957.
